

The Federal Communications Commission

Dear The Federal Communications Commission,

I purposely chose my pre-paid telephone service because I wanted it when I am on the road by myself. I make an average of 2-3 calls per month. As it is, I pay about \$100 per year for the security I need. I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair!

I use my wireless phone for only for safety security. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

Sincerely,

Joanne Deschaine
